ANNOUNCEMENT ASSET PURCHASE AGREEMENT

November 2, 2018

Wildcat Oil Tools (“Wildcat”), a privately-held company, is pleased to announce that it has completed a definitive Asset Purchase Agreement with Momentum Completion, a specialty Thru Tubing and Downhole Service organization.

As part of this agreement, Wildcat will integrate Momentum Completion’s suite of downhole Thru Tubing High Torque Motors, Oscillating Technology, Thru Tubing Equipment and Sand Jet Perforating services into its current portfolio to further strengthen Wildcat’s Well Completion Business Segment. With this addition, Wildcat will expand its current operations to cover the Haynesville, Woodbine and Cotton Valley Shale.

Aron Marquez, Wildcat CEO, noted “This transaction is a major step towards improving the Company’s services portfolio and develop new opportunities in new areas while serving our Customer base better.”

Wildcat’s ultimate goal is rapid response to Customers’ demands ensuring a practical, efficient, cost-effective method in order to provide the most comprehensive service possible. Wildcat is continually investing in a number of various new services and products split among Drilling, Completions and Production.

Wildcat recognizes new, innovative technologies and techniques are critical as wells become deeper, lateral reach extends further and geology becomes more complex and challenging. We are committed to continually adding new products, techniques and technologies in an effort to provide the best and safest outcome possible for our Customers’.

For further information, please contact your local Wildcat Oil Tools representative.
